Simple, the Best

HANDY STENO AH326 USB 2.0 Flash Drive

True Model of Utilitarian Aesthetics

Handy Steno AH326 features the innovative "U-Ring" sliding cover with exquisite, sleek, and pebble-like hand-touch design. The crystal red "U-Ring" sliding cover not only gives AH326 a delicate touch similar to a sliding cell phone, but also prevents the cap from missing. With the anti-slip texture, it also delivers a user experience with nice usability. Additionally, the "U-Ring" is eye-catching in comparison with its black and white base colors and can be further customized with your favorite decorations to become a stylish personal accessory. The combination of all these features makes AH326 a true model of utilitarian aesthetics.
